Nicolas Jativa

Full Stack Developer (Next.js / Node.js)

Quito, Ecuador (UTC-5 | Open to Remote) | nicodevv@proton.me | +593 96 289 0255 | https://www.linkedin.com/in/nicolas-jativa-dev/ | https://nicodev.vercel.app/

SUMMARY

Full Stack Developer with **5+ years of experience** building end-to-end web applications using **Next.js, Node.js, and MongoDB**.

Hands-on experience delivering scalable APIs, authentication flows, data-driven features, and modern frontend interfaces **across the full software development lifecycle**.

Strong product mindset with experience taking full-stack applications from concept to production in real-world environments.

CORE SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS, Styled Components, Bootstrap, CSS Modules

Backend: Node.js, Express.js, REST APIs, Authentication (NextAuth, JWT), RBAC, API Integration, Payment Integration

Databases: MongoDB, PostgreSQL, MySQL

Rendering & APIs: Server-Side Rendering (SSR), API Routes (Next.js)

State & Data: Redux, Context API, Async Data Fetching

Cloud & Media: Vercel, Cloudinary

Tools & Workflow: Git, GitHub, GitHub Actions, CI/CD, Agile

EXPERIENCE

Many Cars, *Full Stack Developer* (October 2021 - Present)

- Designed and developed a full-stack marketplace platform for vehicle listings using Next.js, Node.js, and MongoDB.
- Built a reusable, responsive, component-driven frontend supporting multiple content types and layouts.
- Implemented dynamic filtering, infinite scroll, and SEO-optimized server-side rendering for high-traffic pages.
- Developed secure authentication, role-based access control (RBAC), and subscription-based listing workflows with automated payments.

- Built an admin dashboard for user, listing, and subscription management, including moderation and operational tools.
- Integrated Cloudinary, automated email notifications, encrypted sensitive data, and internal tools for bulk data uploads.

Framed Dreams EC, *Full Stack Developer* (Freelance - June 2025)

- Delivered an end-to-end e-commerce solution from setup to production.
- Integrated payments, automated emails, and media management workflows.
- Implemented performance optimizations and scalable media handling with Cloudinary.
- Applied advanced SEO strategies to drive organic traffic and visibility.
- Deployed and configured the platform for real-world commercial use.

Cava Drinks, *Full Stack Developer* (January 2021 - September 2021)

- Developed a complete e-commerce solution integrating frontend, product data, and business workflows.
- Managed product catalogs, pricing, and content updates while coordinating with suppliers.
- Integrated payment flows and SEO optimizations to support online sales.
- Customized platform behavior to support business-specific requirements.
- Deployed and maintained the platform in production.

Loop Online Supermarket, *Junior Web Developer* (February 2020 - January 2021)

- Supported the development and launch of an early-stage e-commerce platform during a high-demand period.
- Structured and maintained product data including SKUs, pricing, variants, and media assets.
- Collaborated on defining data organization and content workflows to support scalability.
- Improved visual presentation and consistency of catalog data across the platform.
- Assisted with production deployment and early operational support.

EDUCATION & CONTINUOUS LEARNING

Self-Taught Software Developer

- Completed multiple intensive full-stack and frontend-focused programs with a strong emphasis on hands-on projects and real-world applications.
- Built modern web applications covering frontend architecture, backend APIs, databases, authentication, and performance optimization.

- Continuous learning through production projects, freelance work, and applied problem-solving.

Selected Training & Coursework

- Full Stack Web Development (JavaScript, HTML, CSS, Git, APIs, React, Node.js, Express, Databases)
- Advanced React & TypeScript (Hooks, State Management, Next.js, MERN / PERN stacks)
- Backend Fundamentals (REST APIs, Authentication, Databases, Data Modeling)
- SEO & Performance Optimization (On-page, Technical SEO, Keyword Research)
- Digital Marketing & Content Strategy (SEO, email, social media, AI-assisted workflows).

ADDITIONAL INFORMATION

- **Languages:** Spanish (Native), English (Professional), German (Intermediate)
- **Portfolio:** https://nicodev.vercel.app/ (Built with Next.js & Tailwind CSS)
- Certificates and detailed course history available on LinkedIn and portfolio
